Sub : Performance of MiPower software supplied by M/s Power Research & Development Consultants Pvt. Ltd., Bangalore - 560 010 .

This is to certify that M/s Grid Corporation of Orissa is using MiPower Software supplied by M/s Power Research & Development Consultants Pvt. Ltd., Bangalore for Load Flow, Short Circuit, Transient Stability and other studies since 1995. The studies have been conducted for the different conditions of projected load growth with several alternatives of generation options. We are also availing the Annual Software Support Contract services of PRDC to train our engineers on MiPower and Power System Studies.

The MiPower software is found to be user friendly and most useful for Transmission planning, Short circuit, Relay Co-ordination and other studies.
